THE FUTURE OF OFFSHORE ENERGY & TECHNOLOGY.

2020 MEDIA PLANNING GUIDE

www.oedigital.com

ABOUT OFFSHORE ENGINEER

Offshore Engineer reaches the entire offshore energy market.

For over 40 years, *Offshore Engineer* has been the leading source of in-depth analysis, insightful editorial and the latest technology developments shaping the offshore energy industry.

Now *Offshore Engineer* has the power of the industry's leading B2B publishers behind it, delivering more information every day to the industry's largest combined subscriber database.

As the market leader, our global media network provides our advertisers with unsurpassed reach to an unequalled audience of business professionals.

Our customizable marketing platforms are adaptable, combining traditional and custom marketing programs to build brand awareness and deliver an engaging audience for your products and services.

Since 1975, *Offshore Engineer* has been connecting a worldwide audience of highly qualified buyers in the oil and gas industry. Now, we offer more ways than ever to empower marketing teams by providing cross-platform and global integrated marketing solutions that reach a large, targeted and engaged audience.

Offshore Engineer provides actionable intelligence for technical professionals actively involved in the offshore oil and gas industry.

Offshore Engineer's technology-based editorial focus offers dynamic energy market intelligence for better decision-making throughout all levels of offshore oil and gas operations.

Our daily market intelligence allows subscribers to stay up to date with breaking news and exclusive articles through OEDigital.com, OE-Today E-news and our popular social media channels.

CIRCULATION

INDUSTRY

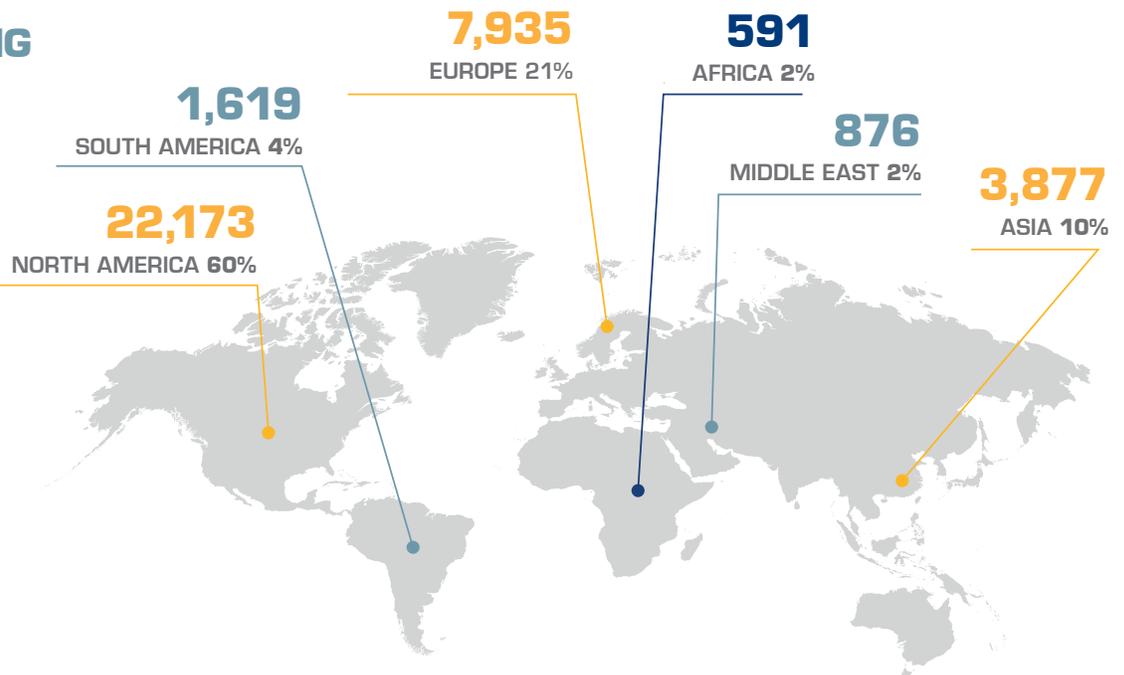

Offshore Engineer reaches a global audience of **37,071** influential oil & gas industry professional and qualified buyers.

Offshore Engineer's global audience of 37,071 allows marketing teams to engage and interact with a targeted, international audience of highly qualified buyers. *Offshore Engineer's* readers consist of qualified oil and gas industry experts in the following fields: delivery supply and service companies, contractors, senior and executive management, geology, geophysics, exploration, operations and operations management, engineering and engineering management.

Offshore Engineer provides the latest developments in subsea technologies, EPC, drilling and completions, flow lines and pipelines, geology and geophysics, installation, shipyard and fabrication, marine support, service supply equipment, government research, education and more.

BPA AUDIT PENDING

Offshore Engineer has submitted its application to be audited by Business Publication Audits of Circulation, Inc. (BPA). We want our advertisers to know our circulation figures have been verified, and are accurate and up to date. As an advertiser, you can leverage the reliability of our BPA Audit to make a more judicious advertising budget based on our verified circulation numbers.

OE TODAY

YOUR DAILY UPDATE FROM OFFSHORE ENGINEER.

Subsea Bypass to Keep Sand Out of Critical Equipment

While operators are in the business of producing oil and gas, their wells eventually produce sand. In addition to constricting the well's oil and gas output, sand that reaches the topsides can damage critical equipment. Preventing sand production through completions is critical, but it's also important for operators to consider facilities sand management, says Hank Rawlins

SBM's Third Fast4Ward Hull Under Construction

Construction on SBM Offshore's third Fast4Ward floating production, storage and offloading unit (FPSO) hull recently began at Chinese shipyard Shanghai Waigaoqiao Shipbuilding and Offshore (SWS)

OFFSHORE ENGINEER TV

OFFSHORE ENGINEER TV

With an Offshore Engineer TV interview, our editorial staff will work to develop insightful Q&A to educate and enlighten viewers about your company's latest advances, technologies and products.

The interview will be posted on OEDigital.com and promoted to our highly engaged audience. Your video will appear site-wide on the right panel with a native sponsorship placement, a branded companion banner and e-newsletter sponsorships, guaranteeing maximum visibility.

INCLUDES

Custom Interview Event Site Package:

Q&A development with editorial staff; 5 minute interview; production & editing; 2 month companion banner; 1 month homepage feature; newsletter feature; placement in OETV Archive.

Total Cost: \$4250/net

INDUSTRY OUTLOOK REPORTS

MARKET INTELLIGENCE SUITE FOR FLOATING PRODUCTION SYSTEMS

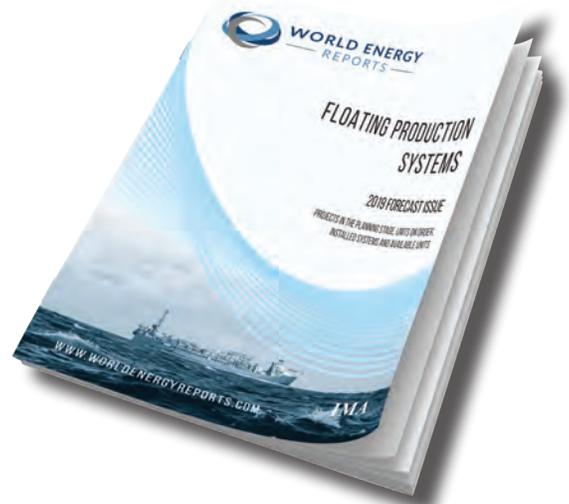

The industry's most sophisticated and in-depth floating production systems market intelligence, business outlook and interactive database.

Market intelligence packages include:

- Annual five-year market forecast
- Real-time, Interactive online database
- Monthly reports and forecast recalibration
- Customer support and research assistance

Our reports and database keeps you in close touch with this expanding business sector. We provide the latest intelligence on future activity and contracting opportunities in the reviving market for floating production systems.
