

FLOATING PRODUCTION SYSTEMS BUSINESS INTELLIGENCE

FPSOs • SEMIs • SPARs • TLPs • FLNGs • FSRUs • FSOs

FORECASTS AND MARKET INTELLIGENCE FOR THE GLOBAL FLOATING PRODUCTION SECTOR

From International Maritime Associates

This comprehensive business intelligence service and online database provides insider access to business and investment opportunities in the deepwater global floating production sector. **There is nothing else like it anywhere!**

IMA
INTERNATIONAL
MARITIME ASSOCIATES

THE ONLY FLOATING PRODUCTION SYSTEMS MARKET INTELLIGENCE THAT OFFERS:

- ANNUAL FIVE YEAR MARKET FORECAST
- REAL TIME, INTERACTIVE ONLINE DATABASE
- MONTHLY REPORTS AND FORECAST RECALIBRATION
- CUSTOMER SUPPORT AND RESEARCH ASSISTANCE

About International Maritime Associates and World Energy Reports:

International Maritime Associates and World Energy Reports have joined forces to provide the most sophisticated and in-depth Floating Production Systems reports, market outlook, analysis, daily intelligence and interactive database.

Co-founder of World Energy Reports and spearheading the business intelligence gathering is managing director and founder of International Maritime Associates (IMA), Jim McCaul. Jim has more than 30 years experience in the global maritime and offshore oil/gas industries, producing 50 multi-client industry reports on the floating production sector over the past 18 years. IMA's "floater reports" have been a major source of market intelligence in

the offshore industry and the IMA annual forecast of equipment orders has been widely referenced in investment presentations, industry publications and other consulting firm reports. Jim has provided extensive market analysis and strategic planning to many of the world's major field operators and offshore contractors.

The IMA/WER floating production business intelligence service provides a continuously updated wealth of data, insight, and analysis designed to keep you a step ahead of the competition in the deepwater business sector.

FIVE YEAR MARKET FORECAST (2016 EDITION)

Analysis of Future Business Drivers and Forecast of Floating Production System Orders between 2016/2020

185 pages of analysis, data, charts and forecasts, all geared to provide the biggest, best and most comprehensive resource so that you can long-range plan to capture your share of the \$100+ billion floating production system market over the next five years.

INCLUDES OVER 110 CHARTS, GRAPHS AND EXHIBITS

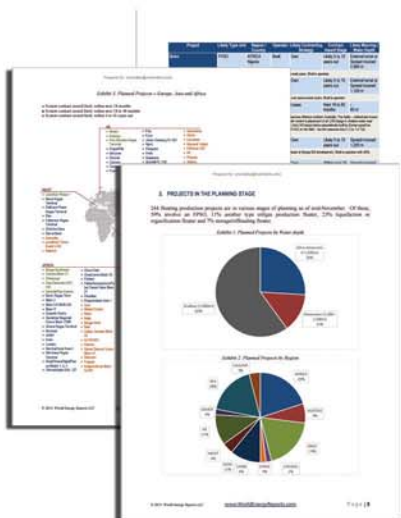

This report presents our five year forecast of floating production system orders. First we present an overview of the industry and our assessment of the underlying market situation likely to prevail over the 2016/20 forecast period. Then we provide our forecast of orders for eight types of production systems under three market scenarios. The final four sections of the report contain details for floating production systems in the planning stage, on order, in operation and available for redeployment.

Preview the report! See the 2016 forecast outline and list of exhibits on pages 6 and 7.

COMPREHENSIVE MONTHLY ANALYSIS

Our monthly reports provide a detailed snapshot of the business sector as of the middle of each month. More than 90 pages of data and industry analysis each month. Excel spreadsheets with each report enable subscribers to tailor the data presentation to their needs. In October of each year we provide a detailed five year forecast of production floater orders. In March of each year we fine tune the forecast and make revisions as needed.

Details for Available Floating Production Systems

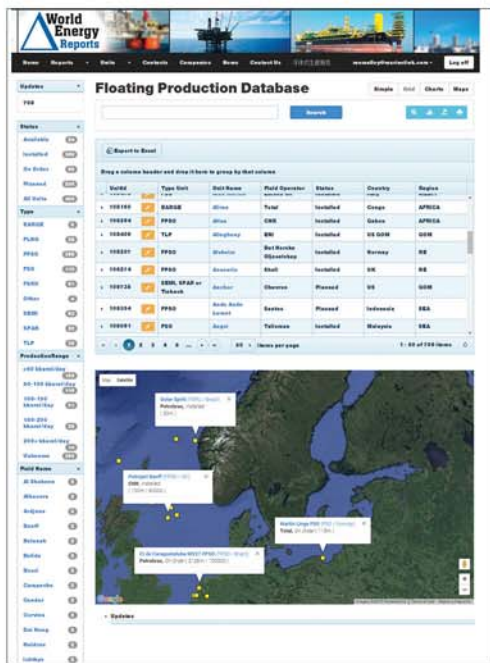

Unit Name	Unit Location	Field Operator	Phase Status	Operational Since	Capacity (bbl/d)	Production (bbl/d)	System Type	Notes
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	
Alto	Offshore	BP	Operational	2009	100,000	100,000	Offshore	

ADVANCED INTERACTIVE DATABASE

Custom, Interactive, & Exportable, Real Time Market Data, Charts & Analytics

The Floating Production Systems database is a major advancement in business intelligence in the floating production sector. Updated daily – 24/7/365 – courtesy of World Energy Reports’ global network of correspondents and analysts – the database is a powerful tool that enables you to research, discover and produce the information you need, when you need it, in the form you want to see it.

CREATE AND EXPORT CUSTOM CHARTS AND SPREADSHEETS

The online database is updated every day – with information direct from primary sources. In the database are details for 240 planned projects, 370 installations in service, 70+ floaters on order and 20+ floaters available. The database is fully searchable. Customized charts and spreadsheets can be directly produced from the database.

TECHNICAL AND RESEARCH ASSISTANCE FOR USERS

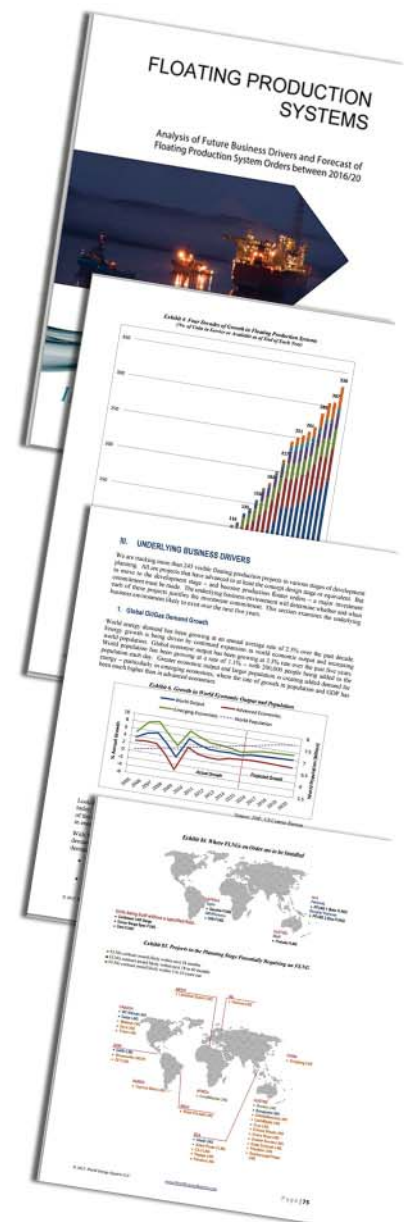

Our market Intelligence comes with a complete customer support package. Jim McCaul and International Maritime Associates are available to assist with technical questions about information in the database and reports. Our technical support staff is able to assist with any questions about using the online database, search tools or features.

WHY SHOULD I PURCHASE A MARKET INTELLIGENCE PACKAGE?

- The forecasts and market intelligence packages are utilized by top business planners and investment analysts in the market. Every day, representatives from banks and financial institutions, oil & gas companies, government agencies, equipment manufacturers, ship and offshore rig builders, construction agencies, and owners/operators access the market intelligence and forecasts they need for sound investment decisions.
- The WER/IMA monthly reports provide more than 90 pages of data and industry analysis, presenting a detailed snapshot of the business sector as of the middle of each month. Excel spreadsheets with each report enable you to tailor the data presentation to your needs. In October of each year we provide a detailed five year forecast of production floater orders. In March of each year we fine tune the forecast and make revisions as needed.
- The online database is updated every day - with information direct from primary sources. In the database are details for 240+ planned projects, 370+ installations in service, 70+ floaters on order and 20+ floaters available. The database is fully searchable. Personalized charts and spreadsheets can be directly produced from the database.
- We offer full support to subscribers. We will assist with questions about information in the database and reports - and our IT manager will assist with any questions about using the database search tools.

FLOATING PRODUCTION SYSTEMS – 2016 FIVE YEAR FORECAST

I. EXECUTIVE SUMMARY

II. OVERVIEW OF THE INDUSTRY

1. Types of Floating Production Systems
 - a. Oil/gas Production: FPSO, Semi, Spar, TLP
 - b. LNG Processing: FLNG, FSRU
2. Industry Expansion
3. Future Deepwater Development

III. UNDERLYING BUSINESS DRIVERS

1. Global Oil/Gas Demand Growth
2. Global Oil/Gas Production Growth
3. Risk of Future Supply Disruption
4. Expected Oil and Gas Prices
5. Competitiveness of Deepwater
6. Capex Budgets of Oil Companies
7. Supply Chain Constraints
8. Future Cost of Capital
9. The Problems of Petrobras
10. Unanticipated Events
11. Summing Up the Underlying Drivers

IV. FORECAST OF PRODUCTION FLOATER ORDERS

1. Forecast Scenarios
 - a. Most Likely Scenario
 - b. Low Scenario
 - c. High Scenario
 - d. Unanticipated Disruptive Events
2. FPSO Requirements
 - a. Overview of FPSOs
 - b. Location of FPSOs
 - c. Owners of FPSOs in Service
 - d. Growth in FPSO Inventory
 - e. Ten Year Trend in FPSO Orders
 - f. Profile of FPSOs Now Being Built
 - g. Planned FPSO Projects
 - h. Future FPSO Requirements
 - i. Timing of FPSO Orders
 - j. Composition of Future FPSO Orders
 - k. Projected FPSO Capex
 - l. Composition of Projected FPSO Capex
3. Production Semis
 - a. Overview of Production Semis
 - b. Location of Production Semis
 - c. Owners of Production Semis
 - d. Growth in Production Semi Inventory
 - e. Ten Year Trend in Production Semi Order
 - f. Production Semis Now Being Built
 - g. Planned Production Semi Projects
 - h. Future Production Semi Orders
 - i. Composition of Future Semi Orders
 - j. Projected Production Semi Capex
4. Tension Leg Platforms
 - a. Overview of TLPs
 - b. Location of TLPs
 - c. Owners of TLPs
 - d. Growth in TLP Inventory

- e. Ten Year Trend in TLP Orders
- f. Profile of TLPs Now Being Built
- g. Planned TLP Projects
- h. Future TLP Requirements
- i. Composition of Future TLP Orders
- j. Projected TLP Capex

5. Spars

- a. Overview of Production Spars
- b. Location of Production Spars
- c. Owners of Production Spars
- d. Growth in Spar Inventory
- e. Ten Year Trend in Spar Orders
- f. Profile of Production Spars Now Being Built
- g. Planned Spar Projects
- h. Future Spar Requirements
- i. Projected Spar Capex

6. Production Barges

- a. Overview of Production Barges
- b. Owners of Production Barges
- c. Ten Year Trend in Barge Orders
- d. Profile of Production Barges Being Built
- e. Planned Barge Projects
- f. Future Barge Orders Requirements
- g. Projected Barge Capex

7. FLNGs

- a. Overview of FLNGs
- b. Owners of FLNGs
- c. Trend in FLNG Orders
- d. Planned FLNG Projects
- e. Future FLNG Orders
- f. Composition of Future FLNG Orders
- g. Projected FLNG Capex

8. FSRUs

- a. Overview of FSRUs
- b. Owners of FSRUs Now in Service & Orders
- c. Ten Year Trend in FSRU Orders
- d. Planned FSRU Projects
- e. Future FSRU Requirements
- f. Composition of Future FSRU Orders
- g. Projected FSRU Capex

9. FSOs

- a. Overview of FSOs
- b. Ownership of FSOs
- c. Orders for FSOs
- d. Planned FSO Projects
- e. Future FSO Requirements
- f. Composition of Future FSO Orders
- g. Projected FSO Capex

V. PROJECTS IN THE PLANNING STAGE

VI. FLOATING PRODUCTION SYSTEMS ON ORDER

VII. INSTALLED SYSTEMS

VIII. AVAILABLE PRODUCTION FLOATERS

LIST OF EXHIBITS — 2016 FORECAST

- Exh. 1. Summary of the 2016/20 Forecast of Production Floater Orders
- Exh. 2. Floating Production & Storage Units in Service, On Order & Available
- Exh. 3. Major Milestones in Development of Floating Production
- Exh. 4. Four Decades of Growth in Floating Production Systems
- Exh. 5. Location and Water Depth of Planned Floating Production Projects
- Exh. 6. Growth in World Economic Output and Population
- Exh. 7. Projected Growth in Global Energy Demand
- Exh. 8. Annual Growth in Global Oil Demand over Past Two Decades
- Exh. 9. Projected Growth in Global Oil Demand
- Exh. 10. Annual Growth in Global Natural Gas Demand over Two Decades
- Exh. 11. Projected Growth in Global Natural Gas Demand
- Exh. 12. Ten Year Trend in US/Canada Oil Production
- Exh. 13. Projected US Natural Gas Production from Shale & Tight Rock Formations
- Exh. 14. Estimated Unplanned OPEC Crude Oil Production Outages
- Exh. 15. Unplanned Liquid Fuels Production Disruptions Non-OPEC Producers
- Exh. 16. Global Chokepoints Where Oil Supply Disruption is a Possibility
- Exh. 17. Natural Gas Supply to Europe from Russia
- Exh. 18. Spot Price of Brent Crude over the Past Decade
- Exh. 19. Futures Price of Brent Crude for Delivery Through 2022
- Exh. 20. Spot Price of Henry Hub Natural Gas Since 1997
- Exh. 21. Futures Price of Henry Hub Natural Gas for Delivery Through 2022
- Exh. 22. Breakeven Prices of Sources of Oil Supply in 2020
- Exh. 23. Productivity and Cost Performance in Eagle Ford & Utica Shale Plays
- Exh. 24. Trend in Production per Rig on Shale Plays
- Exh. 25. Production Floater Backlog Peaks and Troughs
- Exh. 26. Slide in Petrobras' Stock Price
- Exh. 27. Production Floater Forecast Assumptions
- Exh. 28. Pros and Cons of FPSOs
- Exh. 29. Where FPSOs are Currently Installed in North and South America
- Exh. 30. Where FPSOs are Currently Installed in Europe, Africa& Asia/Pacific
- Exh. 31. Ownership of FPSOs as of October 2015
- Exh. 32. Trend in Number of FPSOs in Service or Available
- Exh. 33. Number of FPSOs Ordered over the Past Ten Years
- Exh. 34. Where FPSOs on Order are to be Installed
- Exh. 35. Where FPSOs are now Being Built
- Exh. 36. Timing of FPSO Projects in the Planning Stage
- Exh. 37. Projects in the Planning Stage Potentially Requiring an FPSO
- Exh. 38. Calculation of Projected FPSO Orders between 2016/20
- Exh. 39. Forecast of FPSO Orders over the Next Five Years
- Exh. 40. Timing of FPSO Orders over the Next Five Years
- Exh. 41. Projected FPSO Orders by Region 2016/20
- Exh. 42. Composition of FPSO Orders by Topsides Plant Capacity
- Exh. 43. Composition of FPSO Orders by New Hull, Conversion,Redeployment
- Exh. 44. Projected FPSO Capex over the Next Five Years
- Exh. 45. Composition of Projected FPSO Capex 2016/20
- Exh. 46. Pros and Cons of Production Semis
- Exh. 47. Owners of Production Semis as of October 2015
- Exh. 48. Trend in Number of Production Semis in Service or Available
- Exh. 49. Number of Production Semis Ordered over the Past Ten Years
- Exh. 50. Production Semi Projects in the Planning Stage as of October 2015
- Exh. 51. Where Production Semis are now Installed
- Exh. 52. Where Production Semis are now Being Built
- Exh. 53. Where Production Semis on Order are to be Installed
- Exh. 54. Projects in the Planning Stage Potentially Requiring Production Semi
- Exh. 55. Forecast of Production Semi Orders over the Next Five Years
- Exh. 56. Composition of Production Semi Orders in the Three Scenarios
- Exh. 57. Projected Production Semi Capex over the Next Five Years
- Exh. 58. Pros and Cons of Tension Leg Platforms
- Exh. 59. Owners of Tension Leg Platforms as of October 2015
- Exh. 60. Trend in Number of TLPs in Service
- Exh. 61. Number of TLPs Ordered over the Past Ten Years
- Exh. 62. Where TLPs are now installed
- Exh. 63. Where TLPs are now Being Built
- Exh. 64. Where TLPs on Order are to be installed
- Exh. 65. Where TLPs are in the Planning Stage
- Exh. 66. Forecast of TLP Orders over the Next Five Years
- Exh. 67. Pros and Cons of Production Spars
- Exh. 68. Owners of Production Spars as of October 2015
- Exh. 69. Trend in Number of Production Spars in Service
- Exh. 70. Number of Production Spars Ordered over the Past Ten Years
- Exh. 71. Where Production Spars are now Installed
- Exh. 72. Where Production Spars are Currently Being Built
- Exh. 73. Where Production Spars on Order are to be Installed
- Exh. 74. Forecast of Production Spar Orders over the Next Five Years
- Exh. 75. Owners of Production Barges as of October 2015
- Exh. 76. Number of Production Barges Ordered over the Past Ten Years
- Exh. 77. Where Production Barges are now Installed
- Exh. 78. Where Production Barges are now Being Built
- Exh. 79. Where Production Barges on Order are to be Installed
- Exh. 80. Projects in the Planning Stage Potentially Requiring Production Barge
- Exh. 81. Forecast of Production Barge Orders over the Next Five Years
- Exh. 82. Owners of FLNGs as of October 2015
- Exh. 83. Number of FLNGs Ordered over the Past Ten Years
- Exh. 84. Where FLNGs on Order are to be Installed
- Exh. 85. Projects in the Planning Stage Potentially Requiring an FLNG
- Exh. 86. Forecast of FLNG Orders over the Next Five Years
- Exh. 87. Composition of FLNG Orders in the Three Scenarios
- Exh. 88. Projected FLNG Capex over the Next Five Years
- Exh. 89. Owners of FSRUs as of October 2015
- Exh. 90. Trend in Number of FSRUs in Service
- Exh. 91. Number of FSRUs Ordered over the Past Ten Years
- Exh. 92. Where FSRUs are Now Installed
- Exh. 93. Where FSRUs are now Being Built
- Exh. 94. Where FSRUs Currently on Order are to be Installed
- Exh. 95. Projects in the Planning Stage Potentially Requiring an FSRU
- Exh. 96. Forecast of FSRU Orders over the Next Five Years
- Exh. 97. Composition of FSRU Orders in the Three Scenarios
- Exh. 98. Projected FSRU Capex over the Next Five Years
- Exh. 99. Where FSOs are now Installed
- Exh. 100. Where FSOs are Being Built or Converted
- Exh. 101. Where FSOs on Order are to be Installed
- Exh. 102. Projects in the Visible Planning Stage Potentially Requiring an FSO
- Exh. 103. Forecast of FSO Orders over the Next Five Years
- Exh. 104. Projected FSO Capex over the Next Five Years
- Exh. 105. Planned Projects by Water depth
- Exh. 106. Planned Projects by Region
- Exh. 107. Planned Projects – Europe, Asia and Africa
- Exh. 108. Planned Projects – North and South America
- Exh. 109. Where Floating Production and Storage Systems are to be installed
- Exh. 110. Where Floating Production Systems& Storage Vessels are Being Built
- Exh. 111. Where Floating Production and Storage Systems are Installed

ORDER YOUR REPORT PACKAGE TODAY!

We provide you with the flexibility of three different market intelligence packages to suit your needs:

Information Plans	Annual Five Year Market Forecast	Market Forecast Recalibration	Monthly Market Updates	Database Access	Contacts	Price Monthly	Price Yearly
REPORTS PACKAGE Includes Complete Report with 5-year forecast, 12x Monthly Updates for a full year. Each monthly report provides up-to-date details for (1) projects in the planning stage, (2) units on order, (3) units in service and (4) available units. Also includes long term forecast in October and forecast recalibration in March.	Yes	Yes	Yes	No	No	-	\$3,950
DATABASE PACKAGE Full online Database Access (updated daily, details for 240 floating production projects in the planning stage, 75 production and storage units being built, 365 floating production projects in operation and 25 production floaters off field and looking for redeployment contracts.) with Key Contacts	No	No	No	Yes	Yes	\$1,950	\$3,950
EXECUTIVE INTELLIGENCE PACKAGE Includes Complete Reports Package and Database package (5-year forecast, 12x monthly Updates, full online Database Access (updated daily) with Key Contacts for a full year	Yes	Yes	Yes	Yes	Yes	-	\$6.500
